

FLUORESCENT LAMP

Designed and manufactured in Australia, the range of Roband Lamp Assemblies are a stylish and essential tool to keep prepared food at the required serving temperature before the meal is delivered to the patron.

Fluorescent Lighting Assemblies provide light and match the styling of the Heat Lamps and Heating Assemblies. The profiles match the aluminium extrusion from which the quartz lamp and infra-red assemblies are manufactured. This is an exclusive extruded anodized aluminium section, specifically designed to breathe.

Specifically designed for use in refrigerated displays or where illumination is required without heat, these units have a diffused perspex cover over the light. They also feature a simple mounting system and come complete with an isolating switch and a plug and cord.

SPECIFICATIONS (INCLUDES CONTROL BOX)

MODEL	DESCRIPTION	POWER Watts	LENGTH mm
HF900	1 fluorescent globe	30	900
HF1500	1 fluorescent globe	45	1500

220-240V 50-60Hz.
