

MODULAR HEAT LAMP

Designed and manufactured in Australia, the range of Roband Lamp Assemblies are a stylish and essential tool to keep prepared food at the required serving temperature before the meal is delivered to the patron. The Roband modular heat lamp is effective for overhead heating in food preparation and serving areas. Designed specifically to be wired in pairs and in series, this lamp maintains prepared food at the correct serving temperature, while enhancing presentation at the same time. The HL350 is a compact modular designed heat lamp manufactured from stainless steel, incorporating an easy fit 230 volt, 350 watt globe. The easy fit globes feature a protective quartz glass outer layer that encapsulates the inner globe allowing for safe handling. It is designed for use in custom fabricated installations as a modular component to be wired in parallel.
